

Newsletter

Dear Friends of Namibia,

A lot has happened at the Acacia Namibia office during the past weeks and months and we want to update you before this laborious and interesting year comes to an end...

We also have news from the Boomerang Kindergarten which ends its first year successfully. Enjoy reading our news!

Acacia Namibia has moved and our new address is Sports Village 42 in Tünschel Street in Pionierspark. We are happy about our small but fine new office where it is comfortably cool in summer and nice and warm during winter.

With just a little help from outside and good cooperation from the team as well as Telekom Namibia the move took only about two hours and telephone and internet have been switched over without delay.

We would like to welcome you for a cup of coffee at our new premises!

On the personnel side we also had a few changes. From July until middle of November **Juliet Amoritha Binda**, a student from Polytechnic of Namibia joined our team. Juliet is studying tourism and had to do an internship in her third and final year. Maybe she will soon be part of our team?

We sadly have to say goodbye to **Armgard**. After being part of Acacia Namibia for more than five years she has decided to go into retirement. Armgard took care of her guests with her whole heart and soul and always walked the extra mile to ensure best possible customer service. We will miss her cheerful and uncomplicated nature as well as her helpfulness and wish her all the best with her well-deserved retirement!

On the left you find some impressions of the Boomerang Kindergarten. During the past month we had two events we would like to mention, on the one hand the "Spring Fashion Show" where the kids presented their swimming costumes on the catwalk and on the other hand the graduation where the kids who completed the pre-primary year successfully and are full of anticipation of starting school next year have been handed over their certificates. Congratulations to Memory, the head of the Kindergarten, for her outstanding work and dedication! Please include a visit to the Kindergarten during your next trip to Namibia to experience a lot of happy and cheerful little faces...

„Totsiens“ and greetings from a hot and sunny Windhoek
