

Newsletter

Dear Friends of Namibia,

One-third of the new year has already passed and it started off quite busy for us. Although we missed the breather at the turn of the year we are very happy that we did not have to record any cancellations due to Ebola and want to say thank you to our dear guests who keep us busy. With this newsletter we want to share some headlines regarding Namibia tourism and Acacia Namibia...

CHANGE !!

From 1st of March 2015 Jacobs Digo Musweu, called Digo, joined the team of Acacia Namibia.

We are happy to have found such a cheerful, courteous and diligent colleague. The first few days already showed that Digo fits perfectly into the team and brings fresh air into the office. We benefit from his education at Polytech Namibia where he studied tourism and his experience that he has gained with other tour companies. In the next newsletter Digo will have the opportunity to introduce himself...

WATER !!

This is what is currently a great shortage in Namibia...

This year's rainy season has been very bad. Windhoek which has an average annual rainfall of 350 mm only received about 160 mm so far and the prospects for further rains are not looking too well. However there are some places in Namibia which obtained quite good rains, especially east of Windhoek and in the Otavi area. But we do not give up hope for some more rain... The picture shows the Avis Dam in Windhoek which is already almost dried up.

JOY AND GRATITUDE !!

There are quite a number of our guests who are visiting our Boomerang Kindergarten and are bringing donations which brightens up the lives of the little ones. At this point we want to express our thanks again to all previous and future donors!

We particularly want to mention one very special visit, namely that of Barbara Scheidegger-Conrad from Switzerland. Some pictures taken during her visit are on the left side and what made her visit so unique you can read [HERE](#) or on our facebook page the entry of January 13th 2015.

Dirk Hildebrandt and his friends collected donations from their friends and family in Germany and visited the Kindergarten with a big suitcase full of toys and learning material. What a touching story he had to tell of how the neighbour's children were donating their old toys and encouraged their friends to do the same. Pictures of the hand over can be seen [HERE](#).
