Departure can be arranged any time / day. The tour can also start or end in Swakopmund (for a surcharge) The price is calculated on 2 passengers and changes if the Nrs of pax changes.

Guests can choose from following activities :

Quivertree valley excursion; 1.5 hour horse riding; Road Safety Training (only possible with own car) or ½ day road training; BüllsPort Farmdrive.

The Naukluft area offers a unique hiking & riding experience. Hiking activities provide physical exercise in nature, the experience of peace and tranquillity and the thrill of discovery in an age otherwise dictated by 'life in the fast lane', characterised by superficial entertainment. The diverse landscape surrounding the Naukluft Mountains offers ideal opportunities to explore this unique environment with its incredible rock formations, ever flowing fountains and clear rock pools, fantastic flora and fauna and an amazing bird live. Meet the rare mountain zebra and agile Klipspringers and enjoy the tranquility of nature.

As the term Kluft suggests(meaning “narrow gorge” in German or Dutch, the Naukluft Mountains comprise of a myriad of narrow ravines in the massif. The most prominent feature in this mountain range is the Tsondeb Gorge, which runs from north to south for 40 km. This gorge was carved by the ephemeral Tsondeb River more than 300 million years ago, and can be traversed by car.
